Ray Doering  
Systems West, Inc.  
24054 MN Highway 22  
Litchfield MN 55355

Dear Ray

Some three years ago, we first started working with you and your staff at Systems West concerning our new headquarters facility. During this entire time, the staff and employees of your firm have shown great patience, professionalism, knowledge of construction, and organization in coordination of all of the subcontractors while working with us to complete our project on schedule.

The *design-build* method of construction which Systems West employed ensured that the entire project was seamless and progressed smoothly from the early design stage to move in day.

I commend Systems West's expertise in design, its recommendations on the selection of building materials, its ability to complete the building on schedule and on its adherence to budget.

Again, thanks for a job well done. We are very pleased with the final product.

Sincerely,

Tim Mergen  
CEO/General Manager
