

# MID-MINNESOTA DEVELOPMENT COMMISSION

*Serving the People of Region Six East*

---

January 16, 2008

Mr. Eric Doering, Project Engineer  
Systems West, Inc.  
24054 South Minnesota Highway 22  
Litchfield, MN 55355

Dear Mr. Doering:

It was a pleasure to work with you on the Farmers State Bank building in Dassel, Minnesota. Due to the diligence and efforts from you and your staff, the project proceeded unimpeded. Meeting Building Code requirements was especially easy as most if not all the construction exceeded the minimum requirements.

Like most projects there were unexpected issues that did surface, but were resolved with a minimum of effort due to the planning of you and your staff as well as the quality sub-contractors that you use when undertaking these construction projects.

In my opinion, it would be a credit to anyone interested in seeking and employing a Construction Contractor to give you the opportunity to implement your services which would give them an excellent product while in the long run saving money.

I am very discriminating when it comes to contractors who I consider good enough to work for me. I can count on one hand the contractors I would employ to do a project for me, and this company is most definitely in the handful.

Sincerely,

Sidney A. Fossan
